Redline

mushkin enhanced

The Mushkin Enhanced Redline Series stands in a class by itself. No other memory modules on the face of the globe can compare with the Redline in terms of performance or speed. Redline Series modules grace the world's most elite systems; if you want your rig be world-class as well, take the Redline.

Popular Module Kits:

998708 - 6GB (3x2GB) DDR3 PC3-16000 8-8-7-24
998750 - 6GB (3x2GB) DDR3 PC3-16000 8-8-7-24
998728 - 6GB (3x2GB) DDR3 PC3-15000 7-7-6-20
996746 - 4GB (2x2GB) DDR3 PC3-12800 7-7-7-18

Redline Features:

Enhanced Frequency

All Redline modules offer exceptional headroom for overclocking.

Enhanced Timings

All Redline modules offer tight timings for optimal response.

Hand-Tested

Each Redline module is hand-tested, ensuring top quality.

Lifetime Warranty

Each Redline module is guaranteed for life (under normal/proper operating conditions).

Ascent Heatsink

Some Redline modules offer the Ascent Heatsink, the world's most advanced passive RAM cooling system.

FrostByte Heatsink

Some Redline modules offer the FrostByte Heatsink, an efficient and elegant passive cooling system.
